

Habitat for Humanity®

of Douglas County, Minnesota

2024 Sponsorship Opportunities

together, we
build a brighter future
for local families

86 new or improved homes

77 Aging in Place projects

163 families served since 1997

Habitat for Humanity of Douglas County is the only nonprofit that provides affordable homeownership opportunities in Douglas County. And that's a big deal, because half of our neighbors are struggling to afford housing.

Through shelter, we empower. Habitat homeowners build their own homes alongside volunteers and purchase the home with an affordable mortgage. A decent, stable home gives us the strength, stability, and independence to take care of ourselves and build our own future.

When you support Habitat, you support generations of families, breaking the cycle of housing struggle and leading to new dreams and goals.

In addition, benefits of partnering with Habitat include:

Measurable results: your investment creates local impact with measurable results. Since 1997, Habitat for Humanity of Douglas County has helped more than 163 families throughout Douglas County achieve affordable homeownership and repairs.

Employee engagement: Employee volunteerism and charitable giving improves morale, builds teamwork, and fosters stronger inter-departmental relationships.

Partnering with Habitat for our Hard Hat Events or Team Builder program provides transformational engagements for employees while making a lasting impact in our community.

Together, we can build a brighter future for our neighbors and our community.

We invite you to join us!

Lori Andersen

our mission:

seeking to put God's love into action, Habitat for Humanity brings people together to build homes, communities and hope.

our vision:

a world in which everyone has a decent place to live.

team build partnerships

Team builds are an investment in your employees and the community. Bring coworkers together in a unique way that encourages camaraderie, problem solving, and communication skills which carry back to the workplace. No experience or tools required!
