

Dear Friends,

This is an unprecedented moment where every one of us has been forced to deeply consider the fundamental importance of home - of having safe, decent and affordable shelter.

Home is a shelter from storms. Home is where families celebrate together and comfort one another.

To our 2019-20 homeowners, home is everything.

With your support, Habitat for Humanity continues to build alongside families every year. Build security and stability. Build back the economy. Reconnect communities.

Since 1997, *together*, we have served 96 families through new construction and Aging in Place repairs.

Together, we can build hope, homes and community for more local families.

Thank you for your support!

Jon Ballou, Board President &
Lori Anderson, Executive Director
