

Meet Stephanie!

Stephanie was approved into the Habitat for Humanity of Douglas County's homeownership program in May 2020. She has one daughter, Frankie.

Born and raised in Osakis, Stephanie works as a machine operator. She enjoys spending time with her daughter and dogs.

Stephanie first heard about Habitat in middle school while making food for the volunteers with her Girl Scout troop during the Women's Build. Her mom encouraged Stephanie to apply when she learned about the application process through an online newspaper. She applied to Habitat because she wants space of her own in which to raise her daughter.

Frankie is a "fun and feisty" one-year-old. She loves music and her dogs, going for walks and playing in water.

Already working hard to complete her sweat equity hours, Stephanie has been getting to know the other 2020 Habitat homebuyers by helping build their homes too. After completing 25 hours of sweat equity, Stephanie found out the location of her future home with her mentors.

Stephanie is looking forward to making new memories with her daughter while watching her grow up in a house they can call their own. She is excited!
