The following instructions and information apply to all Contract Divisions. Failure to comply may be cause for rejecting bids. Refer also to the Invitation to Bid, Section 00 11 13, General Conditions and Supplemental Conditions.

1. BIDS:

This is a Construction Management Project. There is no General Contractor. All contractors on this project are considered prime contractors. The Owner will award separate contracts for all Bid Divisions involved in the project. The Project will be administered by the Construction Manager. Bid package bids will be received by the Construction Manager at the time and place designated in the Invitation to Bid (Section 00 11 13).

2. PRE-BID MEETING:

A pre-bid meeting with interested bidders will be held after documents have been sent out and before the bid date as indicated in the Invitation to Bid, Section 00 11 13. The purpose of the meeting is to familiarize bidders with the project. The Construction Manager shall be in attendance.

3. DOCUMENTS FOR BIDDING:

Complete sets of Bidding Documents may be examined or obtained in the manner described in the Invitation to Bid, Section 00 11 13. Complete sets of documents shall be used in preparing Bids; neither the Owner or Construction Manager assume any responsibility for errors or misinterpretations resulting from the use of incomplete sets of Bidding Documents.

Bid Division Description – For clarification purposes the scope of the work involved in each Bid division is defined in three categories: “EXCLUDED”, “INCLUDED” and “ALSO INCLUDED”. Information provided under the heading “EXCLUDED” is for the purpose of noting a point of beginning and/or to eliminate fringe involvements that might be inadvertently included in the scope of work. Information under this heading is not always required to define a Bid Division. “INCLUDED” items are the obvious and/or “conventional” work scope of a Bid Division. Information under “ALSO INCLUDED” points out the “unconventional” and/or less obvious items of work included in the Bid Division, as well as the fringe involvements that could inadvertently be missed in evaluating the scope of the work. Information under this heading is not always required to define a Bid Division.

4. QUALIFICATIONS OF BIDDERS:

The owner reserves the right to reject any bid if the evidence submitted by, or investigation of, such Bidder fails to satisfy the Owner that such Bidder is properly qualified to carry out the obligations of the Agreement and to complete the Work contemplated therein.

5. EXAMINATION OF BIDDING DOCUMENTS AND SITE:

Before submitting a Bid, each Bidder must (a) examine the Bidding Documents thoroughly, (b) visit the site to familiarize himself/herself with local conditions that may in any manner affect cost, progress or performance of the work, (c) familiarize himself/herself with federal, state and local laws, ordinances, rules and regulations that may in any manner affect cost, progress or performance of the work; and (d) study and carefully correlate Bidder's observation with the Bidding Documents.

6. INTERPRETATION:

If any person contemplating submitting a bid is in doubt as to the true meaning of any part of the Drawings, Specifications or other Bidding documents or finds discrepancies in or omissions from the Drawings or Specifications, a written or email request for an interpretation, clarification or correction thereof may be submitted to the Construction Manager. Any inquiry received at least seven (7) working days prior to the date fixed for opening of bids will be given consideration. The person submitting the request will be responsible for its prompt delivery. Any interpretation, clarification or correction of the documents will be made only by Addendum issued by the Construction Manager. A copy of the

addendum will be available at www.hfhdouglascounty.org and at the office of the Construction Manager.

7. APPROVAL OF SUBSTITUTIONS:

Requests for approval of substitutions must be made in writing or via email to the Construction Manager and must be received at least seven (7) working days prior to the date set for receipt of bids. The Construction Manager will issue a written Addendum listing the products approved not later than three (3) days prior to the bid date. A copy of the addendum will be available on-line at www.hfhdouglascounty.org and at the office of the Construction Manager. The Contractor shall not furnish any substitute material, product, or equipment not so approved. If rejection of any such unapproved substitution causes a change in the supplier proposed, or removal of work in place, there shall be no increase in the Contract Sum allowed due to any increase in cost occasioned by such change or removal. Items receiving prior approval will be subject to final approval when the Shop drawing submittals are reviewed.

The Contractor shall be responsible for fit and clearances of substituted items and for making any modifications in his work or the work of other Contractors necessitated by the use of any substitution, without cost to the Owner or other affected Contractors.
