

every person makes an impact.

Team Builder Day

Participate in a Team Builder day with Habitat for Humanity and your group will help change the lives of Douglas County residents while enhancing your group dynamic! Through building a home together, your group will learn how to communicate, cooperate, and problem solve to get the job done. No experience necessary!

Partnering with Habitat is an excellent way to promote your business giving back to the local community while making a lasting impact where your team members live and work. And, you and your team members can work alongside homebuyers to build safe, affordable homes – their *first* homes. Your support gives homebuyers the opportunity to help themselves.

With a little help, we all have the potential to stand on our own. Your financial support and your time will help bring strength, stability and self-reliance to local families.

Join us and help create a world where everyone has a decent place to live!
Contact Sara at 320-762-4255 to find the right option for your group.
